

10 Days

Morocco

A Berber Adventure

ENVIRONMENT
CLEAN UP

We hope you will join us on a great adventure to the white mountain peaks, colourful cities and dramatic Atlantic coastline of Morocco. We will bargain hunt in bustling bazaars and journey deep into the Atlas mountains to spend time with the Berber people, helping out with a community project. We learn to cook traditional Moroccan tagines in bustling Marrakech, visit the sleepy laid back coastal town of Essaouira and trek along the wild Atlantic coast. This trip is a superb introduction to Arab North Africa and offers an experience that, although only a few hours by plane, is a million miles away from home .

Recommended tour itinerary

Day
1

Arrive Marrakech

Fly from the UK to Marrakech and transfer to our hotel. Depending on the time of the flight we will have a late afternoon walk into the markets where we can start to acclimatise to the heat and see that the short flight has brought us to a completely different world.

Day
2

Marrakech, Cooking class, Imlil Atlas Mountains

The next day we head out and visit the souq and mix with the local Marrakeshi as we buy the ingredients we need for our lunch today; the meat, vegetables, herbs and spices that form the basis of Moroccan cuisine. During our hands-on cookery class, the chef will teach us how to make traditional dishes that are central to Moroccan cuisine. Along the way we'll learn about the key ingredients and techniques needed to make some of the most famous Moroccan dishes, such as couscous, pastila, tagine, tanjia and harira. For lunch, we get to savour the gastronomic delights of our morning cookery class, so we had better pay close attention! After lunch we journey into the mountains to a small village and hike into the Imlil valley which has great views of Morocco's tallest mountain, Mount Toubkal. We have a short hike this afternoon from the road head to our base for the next few days – a typical Berber mountain village set deep in the Atlas mountains. Life has changed little here over the years and our hosts will take us on a guided tour of the village where we will be spending the next three days, working on a variety of projects. Accommodation whilst in the village will be a simple village house or 'gite'. Sleeping arrangements are likely to be multiple occupancy rooms with mattresses on the floor.

Day
3-5

Project Work

The next three days are set aside as specific project working days – the exact nature of the project will depend on what the local community needs at the time of our visit. There is a village association that meet to discuss this and put forward suggestions. It is often the case that we won't have exact details of the project work until a month or two before our arrival. Previous groups have built incinerators, repaired footbridges and paths, planted cacti on the hills to prevent soil erosion and laid water pipes and drainage ditches. Whatever we end up doing, these days spent among the villages of the Atlas mountains in the company of local families will be an undoubted highlight of our time in Morocco.

Day
6

High Atlas - Atlantic Coast

Leaving the High Atlas we drive west to the wild and stunning Atlantic Coast. Arriving at Sidi Kaouki we put on our trekking gear and a day sac whilst our main gear goes on to our camp on the back of a camel. The trek along the coast is spectacular and the sea breeze will help keep the temperature at bay. Three hours walking takes us to our accommodation for the night – a camp at Sidi Mbark.

Day
7

Sidi Mbark - Iftane

After a good nights sleep in our tents we continue to wind our way along the beautiful and wild Atlantic coast with a full day of trekking from Sidi Mbark to the tiny fishing village of Iftane. Here we set up camp for another night in our tents, within ear shot of the crashing waves of the Atlantic.

Day
8

Iftane - Trekking end - Essaouira

After a short trek from Iftane of about 1hr 30 minutes we meet our transport at the road head. From here there is a short transfer to the town of Essaouira (45 mins). Essaouira is one of Morocco's most attractive coastal cities. The wild waves of the Atlantic crash remorselessly onto the rocky coastline of this old pirate's hideout. Portuguese, Berber and French battlements encircle the maze of narrow lanes with tiny cafes looking out onto small squares. Two fortresses look out over the ocean and on an offshore island stands another even larger castle. We recommend a stroll around the lively old port that is full of colour and points of interest. The early morning is particularly scenic. There is an expansive beach which we can relax on - the crumbling castle at the end of it is reputedly the inspiration for Jimi Hendrix's 'Castles In The Sand'. The food here is wonderful, especially the sea food! We can see the old traditional methods still used to construct the deep sea fishing boats in the yards next to the harbour.

Day
9

Essaouira - Marrakech

This morning we will get stuck in with an 'Environment Clean Up' and help to clear waste from the coastline. We can take some time for some last minute bargain hunting before heading back to Marrakech where we spend our final night and have a celebratory meal in this vibrant city.

Day
10

Marrakech to UK

After a final morning in the souk and watching the hustle and bustle of this magical city we enjoy a lunch in the main square, Jemma El Fna, before departing for the airport and our return flight to the UK.

Further information

Look what's included!

- International flights
- All accommodation
- All food
- All transportation and activities
- Bi-lingual, first-aid qualified local tour leader
- Parent and student trip launch evening
- Pre-departure preparation evening
- 1-day offsite safety INSET day for staff

- Drinks (advice will be given on purification of water)
- Visas or tourist cards if required
- Any required inoculations
- Personal spending money
- Tips for guides, drivers and porters
- Airport departure taxes paid locally
- Cancellation and personal effects insurance

Your educational journey timeline

Physical journey rating:

Moderate physical activities are included in Grade 3 trips. Good health and reasonable fitness are important to get the most out of the trip. Trips of this grading are likely to include some walking at moderate altitude (up to 2,500m) and occasional longer/harder days may be involved, with between five and seven hours of walking on certain days. The trip may contain other activities such as cycling or rafting which also require physical effort and a reasonable level of fitness. Some steady preparation and an increase if your underlying fitness levels would help you get the most from this grade trip.

Culture shock rating:

Students should expect some culture shock. You'll be exposed to signs of poverty. The food will be quite different to home and English, whilst still spoken, will be less prevalent. Respecting the local culture will make it easier to fit in and get the most out of your trip. We're likely to visit remoter locations on this tour where access to western style services may be sporadic. Often on trips of this grading there are parts of the itinerary which are more remote, interspersed with sections which are more 'comfortable'.

A journey of 1,000 miles...

Starts with a single step... Contact us now to start your educational journey.

1 Get your tailor-made proposal and further information

If this itinerary doesn't quite scratch your educational travel itch then let us tailor-make one for you. Our wealth of experience and expert in-country contacts means we can design an itinerary just for you. Contact us for more information and a detailed quote.

2 Ask for risk assessments and marketing materials

We can provide initial risk assessments and destination threat assessments to help you with your expedition approval process. Ask for posters and your pre-booking information pack too.

3 Arrange a trip launch evening at your school

This is a chance for students and parents to hear more about the planned adventure with a comprehensive information evening and an opportunity for questions.
